Tips for Epic

Clicking in the **search box** will allow a student to enter a search term or select from a list of interest topics.

Students can browse for books on the **Explore** page.

Students should check their **Mailbox** for assigned books.

Students can place books of interest in their **Library** by marking them as a **favorite** (clicking the heart in the upper left hand corner of the book).

Students can narrow their search further by categories like **genre** or **reading level**.

Please check your student’s **name** to make sure they’re in their own **account**. They should also be in their **NHR** (not school) account.

The first page of a book will display its **reading level**.

You can use Zoom’s “**Annotate**” function to mark up the text or draw attention to a word in Epic.
