Books aren't the only things you can read to or with your child. Reading a recipe with your child as you cook or reading the grocery flyers together as you make your shopping list can help your child learn new words and see how reading is part of everyday life.

**Resources for Summer Session at NHR**

In-person programming for Bristol and Dixwell will be held outdoors under a tent to provide social distancing. In-person programming for Science Park and Willow will be held indoors with social distancing.

All in-person and online students attending one hour of tutoring can participate in clubs. Some of the clubs being offered are Arts and Crafts, Chess, Creative Writing, Math, Music, Drama, Nature and Science, Book Club and Poetry. Check with your site director to see which clubs are being offered at your students site.

*We are working with public health experts to reopen safely!* All in-person staff and students are required to wear masks at all times. All must complete health checks before entering any NHR location. Tutoring pairs have assigned desks and will sit six feet apart. An industrial hygienist has inspected our HVAC systems. Air Purifiers will be installed where necessary.
